TOURING RALLYE RACING TECHNOLOGY

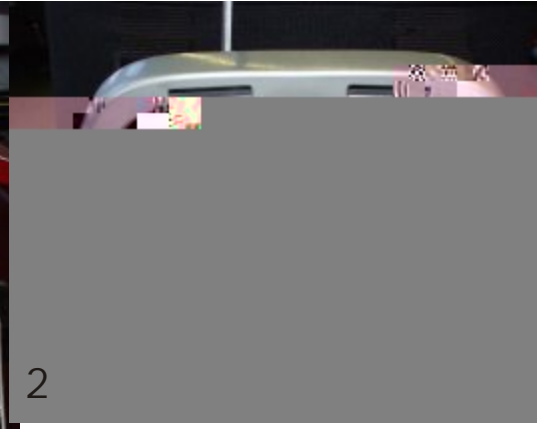

February 2004

01-040-0276-1

Instructions Dual Taillight BMW R850/1100/1150GS + Adventure

CONTAINS:

1 x tail light assembly

Mounting

Remove first the blinkers. Remove the cables and loosen the mounting screws.

Now remove the tail light cover and the two mounting screws as shown in Fig. 1.

Pull the tail light out and disconnect the wiring.

Loosen the two screws as show on Fig. 2 and remove the license plate braket. Be careful not to let the unit fall down!

Remove the original hardware from the original tail light housing. Fig. 3. Mount the original hardware on the new tail light as shown in Fig. 4.

Now do the electrical connection as follows:

Motorbike		Tail light
Gray / black	to	Green
Gray / yellow	to	Red
Brown (ground)	to	Blue

Now mount the new unit in the place of the original with the two mounting bolts. Fig. 4.

Mount the blinkers and reconnect the wires and check the installation.
