MountAdapter
K1200RS

Parts included:

- 1 x mount adapter K1200RS
- 4 x cap head screw M5x45
- 4 x self-locking nut M5
- 4 x large washer M5
- 4 x washer M5

Assembly:

The mount adapter for the BMW K1200RS is put on with the handle to the rear on the fork bridge. (in driving direction) The screw connection takes place with the two enclosed shims, the four cap head screws M5x45 with small M5 washers above, large M5 washers below as well as the four self-locking M5 nuts under the fork bridge.

You can install any of our handlebar mounts onto the mount adapter. Refer to the mounting instructions for the specific GPS mount to install. The example shows the handlebar mount of the Garmin StreetPilot III.
