Windscreen Spoiler for  
R1150GS Adventure

**Parts Included:**

1 x Spoiler for Windscreen R1150GS ADV

## Assembly:

Push the spoiler with the two guide slots into position at the center of the windscreen. You may need to apply some force to the spoiler so that it seats firmly in place at the top of the screen.

Take care that the slots contact the edge protection, otherwise you run the risk of scratching the screen.

The hook of the strap grabs the lower edge of the screen and should be easily tightened.
