Installation Instructions Hard Part Fender Extension R1200GS

Includes:

- 1 x Fender Extension
- 2 x Screw M5x 20Black
- 2 x Plastic Spacer
- 2 x Foam Rubber

Installation:

Stick the foam rubber strip inside the front of the fender extension as shown on Pic. 1.

Loosen both attachment screws on the sides of the beak and slide the extension on the beak. Pic. 2.

Put the two plastic spacers between the beak and the extension and attach them with the M5x20.
