## Installation Instructions Head Light Cover & Anti Glare Shield R1200GS

Contains:

1 x Headlight guard clear

Installation:

Remove the attachment screws of the front blinkers and pull them out approx. 3mm.

Set the metal head lightguard supports between the blinker and the fairing support. Secure the blinker and the head light guard supports again with the original screw.

Secure the light guard on the supports with hardware and check tightness.

Note: this guard may not be street legal in all countries and/or states. Check your local laws.

Installation Instructions  
Head Light Cover & Anti Glare Shield R1200GS

Contains:

1 x Anti-glare shield

Photo 1

Preparation:

1. Remove the windshield. It is attached with two screws up front, in the middle, and one on each side at the angle adjustment points.

2. Remove the two small upper Torx 10 screws on headlight frame.

Photo 2.

3. Place the Anti-glare shield on the headlight frame.

Photo 3.

4. Attach the anti-glare shield with the original screws.

5. Reinstall the windshield and check the tightness of all screws after 30 miles and then at regular intervals.
