Installation Instructions Windscreen Support R1200GS

Parts included:

- 1 x Windscreen Support
- 1 x Support Plate
- 2 x Screw M5x20
- 2 x Washer M5

INSTALLATION INSTRUCTIONS:

Remove the windshield of your R1200GS. Set the support plate behind (under) the BMW windshield support frame as shown on Photo 1. (the bolt cylinders showing down)

Put the screws M5x20 with washers M5 thru the windscreen support and screw them on the support plate as shown on Photo 2.

Adjust the windshield in desired position, loosen the thumb screws on the windscreen support, set the windscreen support rubber rollers lightly on the windshield and tighten the thumb screws again.

NOTE: Make sure all screws are tight before your ride!
