

Adjustable Folding Shift Lever (PN: 045-5405) Supplementary Instructions

There is a small spring clip that will need to be removed to transfer the shift linkage to the Touratech Adjustable Folding Shift Lever. The pen is pointing to this clip in the image below.

Step One: Rotate the clip 180 degrees.

Step Two: Remove the clip.

Step Three: With the clip removed hold the shift linkage, and roll the lever until it pops out of the shift linkage.

Reassembly: Follow the above steps in reverse.
