

TOURATECH

TOURING RALLYE RACING TECHNOLOGY

09-051-1110-1

Installation Instructions

Alum. Tool Compartment Cover R11xx GS

Contains:

1 x lockable tool compartment cover alum. With two keys

Installation:

Remove the rear seat and the original plastic tool compartment cover.

Insert the front side of the Touratech cover as original in the slots and press it down.

Now you can turn the key, pull it out and the tool compartment cover is locked and can not be opened without the key.

With further use of rear seat the small door on the cover needs to be opened for the rear seat engagement (see arrow on photo 2).

To open the small door, loosen the screw on the down side of the cover and turn the small door to the side and tighten the screw again.
