Installation Instructions Rear Brake Cylinder Cover F650GS

Contains:

1 x Brake cylinder cover rear

2 x Washer small M6

installation:

Loosen the two hex screws that attach the rear brake cylinder to the motorcycle frame. Set now the rear brake cylinder cover directly on the brake cylinder from outside. The cover is then attached with original screws and supplied washers small M6. Set washers under the screw head. Tighten screws to 12Nm torque. The bolt holes may need to be filed slightly for perfect match for attachment bolts.
