**Please see German + English Instructions for photos:
<http://www.touratech.de/shop/media/09-300-0135-0.pdf>**

Parts included:

- 1 x centerstand F650 DAKAR
- 2 x centerstand sleeves (bushings)
- 2 x tension springs
- 2 x allen screws M10x50
- 2 x nut nyloc M10
- 4 x washer M10

INSTALLATION ADDENDUM:

Touratech AG has provided English instructions, but we have an optional method.

Touratech-USA considers this method easier than the method described in the German instructions. Basically you install the stand without bushings (to get the springs on). Then after installing the springs you go back and work the bushings in. We consider this easier and safer than trying to stretch the springs. Ensure that the bike cannot fall on you while you are working under it.

1) Start with the one bolt closest to the springs (Right side). Do not insert the bushing. install ONE bolt, and one washer under the bolt head, temporarily, with the nut screwed on a few turns.

2) Attach the springs. Always make sure that the springs are properly engaged. Or install the springs first then install the bolt as in step 1.

3) Use the centerstand to stretch the springs, within the slop allowed by the pivot with no bushing, until the LEFT side bolt can be installed. Install bolt with a washer under the head, and bushing (with grease). Add the other washer, then the nut (just a few turns).

4) Go back to the right side pivot and insert the bushing (with grease). There should be a washer under each head, and a washer under each nut. Then tighten both nuts.

5) Test the stand that it holds the bike in the desired position. It may take a little time to "break in" as the paint wears away and the metal contact points burnish together. If the stand "releases" too easily, file off a small amount of metal from the contact area to allow the stand to take a position farther over-center.

FYI - the untranslated part:

HINWEIS: Der Hauptständer ist im Sinne der StVZO ein eintragungspflichtiges....etc.

Hinweis is a "note". This "note" relates to T.U.V (a permissions document) in europe and does not apply outside of Europe.
